QST, QST, QST.....

This is WX5LAW with the Lawton Independent Repeater Alliance Severe Weather Net.

The Net is now formal at this time and we ask that if you do not have pertinent Weather/Emergency Information to hold all other traffic at this time.

Should this Repeater Fail, Operations will be transferred to the 444.600MHz + 123.0Hz Repeater.

Break...

My name is \_\_\_\_\_ and I will be serving as Net Control Operator.

This is a directed net, so please address all inquiries and/or storm reports to net control.

Break...

The National Weather Service is looking for reports of the following:

1. Tornadoes, Funnel Clouds, or Rotating Wall Clouds
2. Hail (please give the size)
3. Wind gusts in excess of 50 miles per hour
4. Flooding of streams, creeks, rivers, roads, or streets
5. An inch or more of rain (measured)
6. Any damage by wind or lightning
7. Downed Trees, Large Branches, or Power Lines"

Break...

For those wishing to check in to the Net, please do so in the following way:

Please give your callsign phonetically and slowly along with your name and location.

If you are running APRS please give your Tracker Identification as well. LIRA Storm Team Members do not need to do so.

Break...

Do we have any liaisons from any other nets on frequency? If so please call now.

*(pause)*

Stations with formal traffic or announcements please call now.

*(pause)*

I will now take check-ins from any LIRA Storm Team Personnel.

*(pause)*

I will now take check-ins from anyone else who would like to check in.

*(pause)*
